

NOTICE

Dear Resident:

This is to inform you that Arold Construction is inspecting the Bergen County Utilities Authorities interceptor sanitary sewer pipe system in your area.

We will be performing an interior inspection of the sewer pipe located in easements in the Englewood Cliffs and Englewood area. The work will be performed during the day and possibly during the night as well. We will be utilizing a UTV commonly known as a side by side to access the manholes and perform the work. A picture of a similar vehicle and the area we will be in is below.

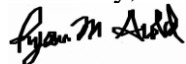

You may see our vehicle and employees working during the day or see their lights while performing the work at night. The noise will be minimal and only be the sound of the UTV moving around.

If you have any questions, please reach out to me at (845) 336-8753 or (845) 518-8008 during normal working hours. During evening hours, I can be reached at (845) 345-7926.

Thank you for your cooperation.

Sincerely,

Ryan Arold
Vice President
